

WE ARE SONNs SUPPORTING OUR NEEDLE NOSES

Our Goal

SONNs was created to bring together supporters, groups and rescues who are interested in working together to share information about Sighthounds and the joys of ownership of these unique dogs. We are a fundraising arm of the sighthound community.

Our Why

We want to help link transports, offer support to adopters, make breed needs and idiosyncrasies easier to navigate for new and potential adopters, and much more. Join us as we extend our passion to make a difference, one needle nose at a time.

Our Support

We understand how expensive transports and rescue can be. Since we do not directly rehome any Needle Noses, our donations will go directly to the groups to help offset their rescue costs. We will hold various fundraisers throughout the year so you can join in and help us on our mission!
